

# Your first step in Security Management

## CPP40719 Certificate IV in Security Management

### Effect Security Management = Effect Security

Risk, Asset, Infrastructure, Team, Data, Health and Safety are just a few of the terms that modern workplaces require security firms to manage. The best security firms are those that value their staff and increasing their capabilities. Effective Security Managers and Team Leaders are the key to effective security operations.

### Who can enrol in this qualification

This qualification is for security supervisors and security managers who are employed by security firms, engaged in contracting arrangements for personnel and clients.

Security supervisors lead teams to coordinate and implement a range of security operations and functions such as control room, monitoring centre, electronic security and guarding.

Security managers coordinate security manpower and services to clients while operating under complex regulatory and contracting arrangements. Roles may include:

- Control room manager
- Event security supervisor
- Monitoring centre manager
- Security business manager
- Security operations supervisor
- Technical security manager.
- Health security manager

### What you will need?

A computer with word processing, PDF reader capabilities, an internet connection (webcam not essential but may help) pen, small notepad, 100 points of Identification.

\*USI - Unique Student Identifier is a Commonwealth Gov't Reference, available from [www.usi.gov.au](http://www.usi.gov.au)
